- 10년전과 비교해 보면 어떤 차이가 있을까요?

- 지금으로부터 10년 전인, 2007년 글로벌 컨설팅 그룹 '인터브랜드'에서 발표한 순위에 따르면

1위 코카콜라, 2위 Microsoft, 3위 IBM, 4위 GE,

5위 NOKIA 를 선두로

Toyota, Intel, McDonald's, Disney, Benz가 그 뒤를 이었습니다.

10년 사이에 정말 많은 변화가 생겼죠?

- 브랜드의 가치는 결코 멈춰 있거나 영원하지 않습니다. 계속해서 가치가 올라온 브랜드, 또는 하락한 브랜드, 그리고 언제나 선두를 지켜왔던 브랜드들 모두 각자의 전략을 가지고 변화를 맞이하였을 것입니다.

3. List of Big Companies using R (July 22, 2017)

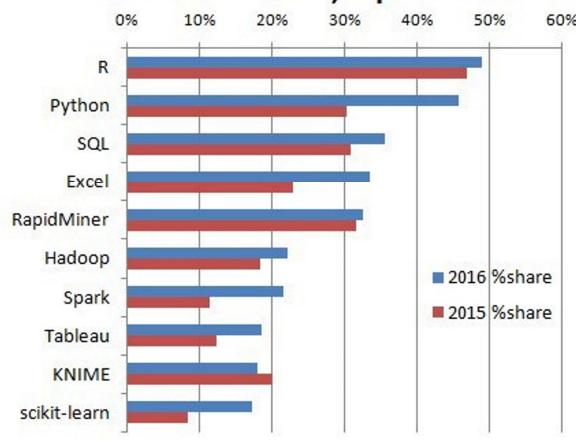

The continuous popularity and growth of R Programming Language has been helping data-driven companies succeed for more than a decade. In recent years, almost every industry sees data and analytics as a strategic competitive advantage. And R is the language of choice for many data scientist and data analyst. According to O'Reilly's 2016 data science salary survey, R was in second position in the category of programming languages for data science while SQL ranked first.

On the other hand, according to another popular survey *KDnuggets Analytics/Data Science 2016 Software Poll: top 10 most popular tools in 2016*, R got top rank with 49% vote.
